I. INTRODUCTION

In accordance with New York State's approved Consolidated Plan and its Annual Action Plan, the Office of Community Renewal (OCR) invites eligible applicants to submit an application for Community Development Block Grant (NYS CDBG) funding. NYS CDBG funds provide small communities and counties in New York State with a great opportunity to undertake activities that focus on community development needs, such as creating or expanding job opportunities, providing safe affordable housing, and addressing local public infrastructure and public facilities issues. OCR encourages communities to propose activities that are creative and innovative in addressing their needs.

The Application requests information necessary to document the eligibility of the activity, compliance with the Primary and National Objectives, the need for the activity, and its overall impact on the community. It contains information to assist Applicants in compiling a complete, relevant and competitive application. Therefore, it is important for prospective Applicants to read it carefully and to become familiar with all applicable guidelines and requirements. The Federal regulations set forth at 24 CFR Part 570 and specifically, Subpart I of 24 CFR 570 are the governing regulations of the NYS CDBG Program for non-entitlement communities.

II. PROGRAM OBJECTIVES

A. Objectives of the Community Development Block Grant Program

As set forth in the Federal Housing and Community Development Act, the Primary Objective of the CDBG program "is the development of viable urban communities by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income (LMI)".

B. Objectives of the New York State (NYS) CDBG Program

Financial assistance will be provided for the development of projects that meet the NYS CDBG Program Objectives and that provide decent, safe, affordable housing, access to clean drinking water, proper disposal of household wastewater, access to local public facilities, and economic opportunities for persons from LMI households by supporting development projects that are designed to create or retain employment opportunities or foster microenterprise activities.

In support of New York's community development goals, the NYS CDBG Program will:

1. Support a mix of rehabilitation, and conversion activities to preserve and increase affordable housing, for both renters and homeowners;
2. Encourage investment in communities by assisting local governments in devising and implementing economic development strategies to revitalize viable communities and provide economic opportunities that principally benefit LMI persons;
3. Revitalize the vibrancy of NYS' communities and enhance the quality of life;
4. Develop and implement strategies, which facilitate the coordination of NYS CDBG funding with other federal, state, and local community development resources.

III. PROGRAM OUTLINE

A. Funding Availability

Available funds may be allocated according to the following categories: Community Development Funding; Economic Development Assistance; Imminent Threat; Technical Assistance & Capacity Building; and Program Administration. Actual allocation percentages are dependent upon the number of applications received in any given year.

There are two funding categories under the NYS CDBG Economic Development Program: (1) Economic Development and (2) Small Business Assistance. These funds are available to non-entitlement units of general local government to assist for-profit businesses to create or retain permanent employment, primarily for persons of low- and moderate-income (LMI) and/or to municipalities for the installation or extension of public infrastructure necessary to facilitate business expansion that will create or retain permanent employment, primarily for persons of low and moderate income.

Applicants that have received an Invitation to Apply may submit an application for economic development funding. Only applications that have been submitted in response to an Invitation to Apply will be considered for funding.

This Application consists of the instructions and forms required for eligible Applicants to apply for economic development and small business assistance. For more information on the competitive application process, contact the Office of Community Renewal at (518) 474-2057 or visit our website at www.nyshcr.org.

B. Funding Limits

Economic Development Program	Up to \$750,000
- Assistance to a business or public infrastructure projects in support of a business	
Small Business Assistance Program	\$25,000 to \$100,000
- Award range for assistance to an individual business	

Applicants seeking economic development funds may submit multiple applications. However, the total amount awarded in a program year for both Economic Development and Small Business Assistance may not exceed a total of \$750,000. Please note that the NYS OCR may exceed these caps if a project or projects have significant and transformational impacts beyond the immediate public benefit.

Applicants should only apply for the amount of funding that can be fully expended and the type of activities that can be completed within the specified project completion period of twenty-four (24) months. Applicants should not proceed with a project that cannot be completed within the specified timeframe or with the assumption that an extension of the project deadline will be considered. Grant recipients who are unable to satisfy the term of their grant agreement may be unable to secure further OCR funding until such time as the prior grants have been completed or the funds recaptured. Inability to meet the required timeframe may be viewed as an issue of project readiness and/or inadequate local capacity to carry out grant activities in a timely manner and may require significant additional actions on the part of the municipality to insure that any potential future grants will be completed within the term of the grant agreement.

C. Eligible Applicants

Eligible applicants are non-entitlement units of general local government (cities, villages, towns or counties), excluding metropolitan cities, urban counties, and Indian Tribes that are designated Entitlement communities. Non-entitlement areas are defined as cities, towns, and villages with populations of less than 50,000 except those designated principal cities of Metropolitan Statistical Areas, and counties with populations of less than 200,000. A list of eligible communities is available at: <http://nysdhcr.gov/Programs/NYS-CDBG/EligibleCommunities.htm>.

Counties may apply on behalf of units of general local government located within their jurisdiction when the unit of local government has authorized the county to apply. The unit of general local government will be considered the Applicant for determining grant limits, and its statistics will be used for purposes of the selection factors. A cooperation agreement between the County and the local government, an authorizing resolution issued by the local government, and an explanation as to why the arrangement is needed must be included as an exhibit to the application.

D. Eligibility Restrictions

Prior Recipients of the NYS CDBG Program are subject to an evaluation of capacity and performance and must resolve all outstanding audit, monitoring and/or non-compliance issues which involve a violation of federal, state or local law or CDBG program requirements prior to the submission of an application for funding. An Applicant may be ineligible for a grant when its performance evidences significant lack of capacity to carry out the proposed project or program as required and according to the applicable laws, regulations, policies and procedures governing the NYS CDBG Program.

E. Types of Applications

The Economic Development Program provides grant funds to eligible communities for economic development projects that result in the creation or retention of permanent jobs, principally for persons from low- and moderate-income families.

Eligible communities can apply for NYS CDBG funds to support a wide range of activities. The Economic Development Program consists of two funding categories: (1) Economic Development and Small Business Assistance.

This application is for the Economic Development and Small Business Assistance programs.

F. Funding Categories

1. **Economic Development** – Funding is typically provided to eligible communities for traditional economic development activities such as business attraction, expansion, and retention projects to:
 - provide financial assistance to businesses for an identified CDBG eligible activity which will result in the creation or retention of permanent, private sector job opportunities principally for persons from LMI; or
 - construct or improve publicly-owned infrastructure necessary to accommodate the creation, expansion or retention of a business which will result in the creation or retention of permanent, private sector job opportunities principally for persons from LMI families.
2. **Small Business Assistance Program** – Funding provides resources to eligible communities in an effort to foster small business development while providing job opportunities for persons from LMI families. For the purpose of this program, a small business is defined as a commercial enterprise that is independently owned, operated, and controlled, and has twenty-five (25) or fewer full-time equivalent employees at the time of application.

G. Program Guidelines

a. **Economic Development**

- a. Maximum award amount of \$750,000 (minimum \$100,000).
- b. Projects must result in the creation or retention of at least one full-time equivalent (FTE) job for every \$15,000 of NYS CDBG funds awarded.
- c. NYS CDBG funds can only fund up to 40% of a total project cost, not to exceed the maximum award amount.
- d. NYS CDBG funds must be used as gap funding to induce project completion.
- e. A Business owner cannot be included or reported as a created job.

b. **Small Business Assistance**

- a. Maximum award amount of \$25,000 to \$100,000 per business.
- b. Projects must result in the creation or retention of at least one FTE job for every \$25,000 of NYS CDBG funds awarded.
- c. NYS CDBG funds can only fund up to 40% of a total project cost, not to exceed the maximum award amount.
- d. Minimum of 20% owner equity contribution to the project is required.* (Equity investment must be in the form of cash.)
*To induce sustainable green projects the equity contribution may be lowered to a minimum of 10% if the activity and/or business are certified by the community and OCR as a NYS CDBG Green Project. For the project to be certified, the Green Incentive Checklist must be completed and submitted as part of this application. See Appendix C.
- e. A Business owner cannot be included or reported as a created job.

The maximum award is not intended to serve as a target amount for requests for assistance. Applicants should apply for the amount of funds needed to undertake the project and the amount that can be expended within the term of the grant.

H. Application Review Process

The review process for the NYS CDBG Program is designed to ensure that the limited NYS CDBG funds available are awarded to communities that have met all of the Federal CDBG requirements, demonstrated a significant need for the proposed activity, demonstrated the project is financially feasible, shown a significant positive impact to

the community, is consistent with the NYS HCR Investment Strategy and complies with the Smart Growth Public Infrastructure Act. Project selection shall take into consideration the recommendation of the relevant regional economic development council.

In evaluating projects, the OCR will analyze the following specific factors:

- The demonstrated need for the project.
- The extent to which the project will create or retain permanent, full time jobs for persons of LMI. At least 51 percent of the jobs created or retained must be made available to, taken by or held by persons of LMI.
- Evidence of a market for the products and services of each of the businesses.
- The amount of NYS CDBG funds required to create or retain each full time equivalent (FTE) job.
- The degree to which the project is financially and technically feasible.
- Reasonableness of project costs.
- Commitment and availability of funds from other financing sources, in particular the equity investment of the businesses. The infusion of NYS CDBG dollars should leverage a substantial investment of private dollars.
- The extent to which the project can move forward upon award. Issues which may hinder timely completion of the project should be addressed prior to application, but must be addressed prior to award.
- The current and future impact of the project and benefit to the public.
- The degree to which the project supports the strategic plan of a designated Empowerment Zone, Enterprise Community, NYS Empire Zone or NYS Excelsior Program, or similar community-approved strategic/comprehensive plan.

The OCR will use the underwriting guidelines that meet the requirements set forth in 24 CFR 570.482(e) and Appendix A to Part 570. The purpose of the underwriting is to select economic development projects which are financially viable and make the most effective use of NYS CDBG funds.

The capacity of the Applicant to complete activities in a timely manner may impact the evaluation of the application. OCR will review an applicant's program history, beginning with Program Year 2000, to determine whether or not the Applicant has completed and/or made appropriate progress with any and all prior OCR grants including the number of extensions requested in order to complete a project beyond the specified deadline. Applicants should only apply for the amount of funding that can be fully expended and the type of activities that can be completed within the specified project completion period of twenty-four (24) months. Applicants should not proceed with a project that cannot be completed within the specified timeframe or with the assumption that an extension of the project deadline will be considered.

I. Technical Assistance

Prior to submission of the application, OCR will provide technical assistance regarding the application, proposed projects, and program regulations to Applicants upon request. Potential applicants with questions regarding the application and/or the NYS CDBG Program should call 518-474-2057 for assistance.

J. Smart Growth (Chapter 433 of the Laws of 2010)

Please note that the New York State Housing Trust Fund Corporation is subject to the State Smart Growth Public Infrastructure Act (Chapter 433 of the Laws of 2010) and must, to the extent applicable, make funding decisions consistent with the provisions of the Act.

K. Procuring for Professional Services

1. Consultants

Applicants may contract with a consultant for the preparation of application materials and/or for the administration of the NYS CDBG funded project.

Before selecting a consultant, engineer, architect or other professional to assist in the preparation of an application, please consider the following:

- a. **“Loss-Leader” Arrangements** – Loss-leader arrangements, in which consultants offer to prepare a grant application or make preliminary engineering designs and estimates at reduced rates or at no cost in return for receiving a contract for program delivery and/or administration if the application is funded,

are prohibited by federal regulations. Applicants may find this approach attractive because costs they bear prior to the award of NYS CDBG funding, such as application preparation or preliminary engineering studies, are not reimbursable from the NYS CDBG grant. However, **loss-leader arrangements violate federal regulations which require “maximum open and free competition”.**

- b. Selection of Engineers or Administrative Consultants Prior to Grant Award** – Some Applicants may wish to procure the services of a consultant or engineer to assist with grant application preparation, preliminary engineering and administration/program delivery, using one procurement process to obtain all the services. This approach is permitted by HUD regulations, as long as federal procurement procedures found at 24 CFR Part 85 are complied with.

For NYS CDBG funded professional services, the selection of a provider must be conducted in a manner so as to provide maximum open and free competition. The provisions of OMB Circular A-87 and applicable state, federal (24CFR 85.36) and local laws govern the procurement of professional services. **The selection of consultants must be completed according to the federal procurement regulations if NYS CDBG funds will be used for payment of the professional services.** Professional services that are not procured in compliance with the federal procurement regulations are ineligible CDBG expenditures and will not be reimbursed for payment. **For non-CDBG funded professional services such as services for the preparation of the application, Applicants must follow their local procurement policies.** Use of NYS CDBG funds for preparation of the 2015 application is not an allowable use of program funds. Regardless of the funding source used to pay for professional services, written agreements must be executed between the parties detailing all responsibilities, standards and fees. For additional information on procuring professional services, reference Chapters 1 and 4 of the OCR Grant Administration Manual, which is available on the OCR website, www.nyshcr.org.

Applicants that elect to use a professional service contractor for both grant application preparation and administration of the program are encouraged to consider issuing one Request for Proposal (RFP) for these services, even though the services may be funded by different funding sources. Issuing one RFP for both of these services typically helps to reduce the amount of start-up time needed after award. Applicants choosing to issue one RFP for these services must comply with the federal procurement requirements **if any portion of the services will be funded by NYS CDBG funds.** While permissible under state law, communities should also be aware when soliciting for professional services that federal requirements restrict the use of Request for Qualifications (RFQ) process to hiring for engineering or architectural services only. Other procurement for professional services would generally be expected to be done through an RFP process.

2. Subrecipients

Applicants may decide to use a Subrecipient to carry out the NYS CDBG funded activity including administration and/or program delivery tasks required to administer NYS CDBG programs. There are typically two kinds of Subrecipients:

- Governmental non-profits, which are public agencies, commissions, or authorities that are created by the Recipient (such as a housing authority or water supply district). They also may have been created by a consortium of municipalities, such as a county or multi-county sewer authority;
- Private non-profits, which are incorporated under the non-profit statutes of state law and frequently have IRS 501(c)(3) status, providing specific services in areas such as job training, day care, housing, community development, homeless shelters, mental health centers, industrial development, etc.

A Subrecipient is an organization that is directly provided NYS CDBG funds for its use in carrying out previously agreed upon eligible activities. In order to be considered a Subrecipient, NYS CDBG funds must flow through the organization. This means that a Recipient must draw funds from OCR and then grant those funds to the Subrecipient who will then pay all vendors and make all grants from their bank account.

Federal procurement standards do not apply to the selection of a Subrecipient. The Recipient and the Subrecipient must enter into a written agreement. The agreement must remain in effect during any period that the Subrecipient has control over NYS CDBG funds, including program income. For additional information on Subrecipients, reference Chapter 1 of the OCR Grant Administration Manual, which is available on the HCR website, www.nyshcr.org.

V. PRE-SUBMISSION FORM INSTRUCTIONS

A. Submission Instructions

All Economic Development and Small Business Applications continue to be done through an Open Round process and completed through the CFA portal. The Open Round and Pre-Submission Form process does not share the CFA deadline. Open Round applications may be submitted anytime as projects are deemed ready. Applicants applying for Economic Development or Small Business assistance through the Open Round will not be allowed to apply for any other funding sources within the same application.

ADDITIONAL PROGRAM REQUIREMENTS

A. National Objective Compliance

Activities funded under the NYS CDBG Program must primarily benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight or meet community development needs having a particular urgency. **Most economic development activities (including small business) are undertaken for the purpose of job creation or retention where at least 51% of the jobs are either held by, or made available to, low- and moderate-income persons.**

Direct Benefit

Activities that are a Direct Benefit are designed to exclusively serve LMI persons. This method is used to determine the LMI benefit for activities that assist a specific known person or household. Activities that qualify under this benefit include residential rehabilitation or job creation activities. For example, a Direct Benefit activity occurs when the community has income eligibility requirements that limit the benefits of the CDBG activity to only LMI families.

Documenting LMI benefit for Direct Benefit projects is relatively clear-cut since potential Recipients of CDBG assistance are screened for income eligibility with the use of the most current HUD income limits for the county in which the project is located. Reference the 2015 HUD Income Limits or visit, <http://www.huduser.org/datasets/il.html>.

Low and Moderate Income Jobs

A *LMI Jobs activity* is one which creates or retains permanent jobs, at least 51 percent of which, on a full time equivalent (FTE) basis, are either *held by* LMI persons or considered to be *available to* LMI persons.

What jobs can be counted:

In counting the jobs to be used in the calculation for determining the percentage that benefit LMI persons, the following policies apply:

- Part-time jobs must be converted to full-time equivalents (FTE);
- Only permanent jobs count (temporary jobs may not be included);
- Seasonal jobs are considered only if the job is the employee's principal occupation; and
- Jobs indirectly created or retained (i.e., "spin off" jobs) may not be counted.

Jobs "held by" LMI persons:

A job is considered to be held by a LMI person if the person is, at the time their employment commences, a member of a family whose income falls at or below the applicable Section 8 program income limits. The family's entire income must be counted (This is particularly important when dealing with part-time jobs or jobs taken by students). The annual salary or hourly wage of the job that the person fills is irrelevant.

Jobs "available to" LMI persons:

Jobs that are not held (filled) by LMI persons may be claimed to be "available to" LMI persons *only* when *both* of the following are met:

- The jobs do not require special skills that can only be acquired with substantial (i.e., one year or more) training or work experience, and education beyond high school is not a prerequisite to fill such jobs, unless the business agrees to hire unqualified persons and train them and
- The state grant recipient and/or the assisted business takes actions to ensure that LMI persons receive "first consideration" for filling such jobs.

Principles involved in providing "first consideration":

- The business must use a hiring practice that under usual circumstances would result in over 51 percent of LMI persons interviewed for applicable jobs being hired,
- The business must seriously consider a sufficient number of LMI job applicants to give reasonable opportunity to fill the position with such a person, and
- The distance from residence and availability of transportation to the job site must be reasonable before a particular LMI person may be considered a serious applicant for the job.

Special rules for retained jobs:

In order to consider jobs *retained* as a result of CDBG assistance, there must be clear and objective evidence that permanent jobs will be lost without CDBG assistance. For these purposes, “clear and objective” evidence that jobs will be lost would include:

- Evidence that the business has issued a notice to affected employees or made a public announcement to that effect, or
- Analysis of relevant financial records which clearly and convincingly shows that the business is likely to have to cut back employment in the near future without the planned intervention.

To meet the LMI job standard, 51 percent or more of the retained jobs must be either:

- Known to be held by LMI persons at the time CDBG assistance is provided and/or
- Jobs which can be reasonably expected to “turn over” to LMI persons within two years.

General:

When assistance is provided to a business for the purpose of creating or retaining jobs, the grant recipient must have on file a written agreement with the business in which that business agrees to keep or create a specific number of jobs and identifies each such job by type and whether the job will be full- or part-time. The agreement must also specify the actions the business and the grant recipient will take to ensure that at least 51 percent of the jobs created or retained will benefit LMI persons pursuant to the program rules.

The program records also must document which jobs were actually created and retained, whether each such job was held by, taken by, or made available to a LMI person, and the full-time equivalency status of each job.

Job creation:

When demonstrating that at least 51 percent of the jobs created will be **made available to** LMI persons, documentation for each assisted business must include:

- A written commitment by the business that it will make at least 51 percent of the jobs on a full time equivalent basis available to LMI persons and will provide training for any of those jobs requiring special skills or education;
- A listing by job title of employees at the time the application for assistance is submitted;
- A listing, by job title, of the total permanent jobs to be created, indicating which jobs will be available to LMI persons, which jobs require special skills or education, and which jobs are part-time;
- Evidence supporting the estimate of the total number of jobs;
- A description of actions to be taken by the recipient and business to ensure that LMI persons will receive first consideration for these jobs;
- A listing, by job title, race, ethnicity, gender and handicapped status of the permanent jobs created; which jobs were made available to LMI persons, and a description of how first consideration was given to such persons for those jobs. That description should include the hiring process used; the number of LMI persons considered for each job; and the number of LMI persons actually hired;
- A description of how the LMI status of those given first consideration was determined; and
- A description of how the total number of jobs was determined.

When demonstrating that at least 51 percent of the jobs will **be taken by** LMI persons, documentation for each assisted business must include:

- A written commitment by the business that at least 51 percent of the jobs on a full-time equivalent basis, will be held by LMI persons;
- A listing, by job title, of employees at the time the application for assistance is submitted;
- A listing, by job title, of the permanent jobs to be created;
- Evidence supporting the estimated total number of jobs to be created;
- A listing, by job title, race, ethnicity, gender and handicapped status of the permanent jobs actually created and those initially taken by LMI persons;
- A description of how the LMI status of those hired was determined by the applicant during the review of the recipient; and
- A description of how the total number of jobs was determined.

Job retention:

Following are record-keeping requirements for documenting records that support compliance with job retention goals.

- Clear and objective evidence that in the absence of the CDBG assistance the jobs will be lost;

- A written commitment by the business to meet the standard for retained jobs involving the employment of LMI persons; and
- A listing by job title, race, ethnicity, gender and handicapped status of the employees at the time the assistance is provided;

For each activity determined to benefit LMI persons based on jobs to be created for or retained by LMI persons:

- The number of jobs to be created and the number of additional jobs expected to be created, if any;
- The nature of the jobs created to date (number skilled, semiskilled, and unskilled, and for semi-skilled jobs, any special education or experience required) and the nature of additional jobs expected to be created; and,
- Any other evidence to support the conclusion that a majority of jobs will be filled by LMI persons, such as:
 - ✓ Evidence to assure accessibility of the jobs to areas where substantial numbers of LMI persons reside; and
 - ✓ Evidence to support any special outreach and/or training to be directed toward LMI persons.

VIII. APPENDICES

A. Program Requirements

A. Eligible Activities

In selecting eligible activities, communities should be aware that although an activity may be legally eligible under the federal statute and HUD regulations, it may not be competitive under OCR's evaluation criteria. An activity being considered for a State CDBG application should be compared against the evaluation criteria for that category before a decision is made to prepare an application. Below is an edited list of eligible activities identified at Section 105(a) of the Housing and Community Development Act of 1974, as amended and 24 CFR 570.482, as amended.

Additional information on eligible activities can be found at:

<http://www.hud.gov/offices/cpd/communitydevelopment/library/stateguide/index.cfm>.

2. Disposition of any real property acquired with CDBG funds or its retention for public purposes;
3. Acquisition, construction, reconstruction, or installation of public works, facilities and site or other improvements;
4. Clearance, demolition, removal, reconstruction, and rehabilitation of buildings and improvements;

B. Ineligible Activities

1. Buildings, or portions thereof, used for the general conduct of government cannot be assisted with CDBG funds. This definition does not include such facilities as neighborhood service centers or special purpose buildings that may house services provided by government at decentralized locations. However, the removal of architectural barriers within public buildings to make them more accessible to elderly and handicapped persons is an eligible activity.
2. General government expenses, except for those costs directly attributable to administration of a local CDBG program and documented as such.
 - (a) The general rule is that the purchase of equipment with CDBG funds is ineligible. An exception is that compensation for the use of construction equipment through leasing, depreciation, or use allowances pursuant to OMB circulars A-87 or A-122, as applicable, for an otherwise eligible activity is an eligible use of CDBG funds.
 - (b) The general rule is that any expense associated with repairing, operating or maintaining public facilities, improvements and services is ineligible. Specific exceptions are operating and maintenance expenses associated with public service activities, interim assistance and office space for program staff employed in carrying out the CDBG program.
 - (c) The general rule is that CDBG funds cannot be used for income payments for housing or any other purpose. Examples of ineligible income payments include: payments for income maintenance; housing allowances, down payments and mortgage subsidies. One time payments made on behalf of persons or families to meet emergency needs such as housing or essential utilities is not an income payment and is eligible.

C. Primary Objective

The Primary Objective of the Community Development Block Grant Program is to benefit LMI persons. At least 70% of New York State's CDBG allocation must be allocated to activities, which meet the Primary Objective of benefitting LMI persons. For an activity to qualify as benefitting LMI persons, at least 51% of the persons benefiting from the activity must be LMI persons.

Applicants need to determine how the National Objective requirement will be satisfied when during the planning, implementing and documenting of CDBG projects. Each project must meet the Primary and National Objectives. When meeting the benefit to LMI persons National Objective, Applicants must ensure that moderate-income persons (80% of median income) are not benefited to the exclusion of low-income persons (50% of median income).

D. National Objectives

Each CDBG funded activity must meet one of three National Objectives:

1. Benefit LMI persons;
2. Aid in the prevention or elimination of slums or blight; or
3. Meet community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community and other financial resources are not available to meet such needs.

E. Meeting the National Objectives

Additional information on National Objective Compliance can be found at:
<http://www.hud.gov/offices/cpd/communitydevelopment/library/stateguide/index.cfm>.

1. **Benefit to LMI persons**

For the purposes of meeting this National Objective, CDBG activities are divided into three main categories: Area Benefit, Limited Clientele, Direct Benefit including housing and job creation or retention. Each activity proposed must fall under one of the above categories in order to be considered for funding. Activities in these categories qualify under the LMI benefit National Objective in one of three ways: Area Benefit, Limited Clientele or Direct Benefit. The Applicant must determine under which category their project meets the requirement to serve at least 51% LMI persons. The following information will assist with that determination.

Area Benefit

Activities that meet the Area Benefit are designed to serve needs in a geographic area that has a mix of income levels (i.e., a project which will benefit all the residents of the project area, regardless of income). Area benefit includes activities that do not have income eligibility requirements, but instead serve an entire geographic area. An activity proposed for an area wide project must also be clearly designed to meet identified needs of families in the area. **Under HUD regulations, an activity that serves an area that is not primarily residential in character cannot qualify as an Area Benefit activity.**

Applicants that propose to use CDBG funds for Area Benefit activities must provide data to demonstrate that at least 51% of the persons who would benefit from CDBG assistance are LMI. Area benefit to LMI persons can be documented by the use of Census data or an income survey. For areas where Census data is not available, the Applicant must conduct a survey to prove LMI benefit. For activities in a target area where Census data is available, the Census Tract or Block Groups must match the area's boundaries in order to be valid. Otherwise, a survey must be conducted (e.g. using Census Tract data to substantiate compliance for water line replacement when everyone in the Census Tract would not be a beneficiary of the water line replacement).

Direct Benefit

Activities that are a Direct Benefit are designed to exclusively serve LMI persons. This method is used to determine the LMI benefit for activities that assist a specific known person or household. Activities that qualify under this benefit include residential rehabilitation or job creation activities. For example, a Direct Benefit activity occurs when the community has income eligibility requirements that limit the benefits of the CDBG activity to only LMI families.

Documenting LMI benefit for Direct Benefit projects is relatively clear-cut since potential Recipients of CDBG assistance are screened for income eligibility with the use of the most current HUD income limits for the county in which the project is located. Visit www.huduser.org/datasets/il.html for the 2015 HUD Income Limits.

Limited Clientele

Activities that meet the Limited Clientele benefit are activities that provide benefits to a specific group of persons rather than everyone in an area. The activity may benefit particular persons without regard to the area in which they reside, or it may be an activity that provides benefit on an area basis but only to a specific group of persons who reside in the area. In either case, at least 51% of the beneficiaries of the activity must be LMI persons. To qualify under this category, the activity must meet one of the following tests:

- Exclusively benefit a clientele who is generally presumed by HUD to be principally LMI persons. Abused children, elderly persons, battered spouses, homeless persons, adults meeting the Bureau of Census definition of "severely disabled adults", illiterate adults, persons living with AIDS, and migrant farm workers are presumed by HUD to be principally LMI. Activities that serve this group will be assumed to meet 51% LMI benefit unless the Applicant has surveyed the group to determine the actual benefit exceeds the assumed benefit of 51%; or
- Require information on family size and income so that it is evident that at least 51% of the clientele are persons whose family income does not exceed the LMI limit; or
- Be of such nature and location that it may be concluded that the activity's clientele will primarily be LMI persons; or

- Be an activity that serves to remove material or architectural barriers to the mobility or accessibility of elderly persons or of adults meeting the Bureau of the Census' Current Population Reports definition of severely disabled, provide it is restricted, to the extent practicable, to the removal of such barriers by assisting:
 - ✓ The reconstruction of a public facility or improvement, or portion thereof, that does not qualify under the LMI area benefit criteria; or
 - ✓ The rehabilitation of a privately-owned nonresidential building or improvement that does not qualify under the L/M Income Area Benefit criteria or the LMI Jobs criteria; or
 - ✓ The rehabilitation of the common areas of a residential structure that contains more than one dwelling unit and that does not qualify under the LMI housing criteria.
- Be a microenterprise assistance activity carried out in accordance with the provisions of HCDA Section 105(a)(22) or 24 CFR 570.482(c) with respect to those owners of microenterprises and persons developing microenterprises assisted under the activity during each program year who are LMI persons.
- Be an activity designed to provide job training and placement and/or other employment support services, including, but not limited to, peer support programs, counseling, child care, transportation, and other similar services, in which the percentage of LMI persons assisted is less than 51% which qualifies under the Limited Clientele national objective in the following limited circumstance:
 - ✓ In such cases where such training or provision of supportive services assist businesses, and the only use of CDBG assistance is to provide job training and/or supportive services, and the proportion of the total cost of the services borne by CDBG funds is no greater than the proportion of the total number of persons benefiting from the services who are LMI.

Applicants that propose to use CDBG funds for Limited Clientele benefit activities must provide documentation demonstrating that the activity proposed meets one of the tests qualifying the activity as meeting the Limited Clientele criteria. Depending on the activity being proposed, the Applicant should provide documentation showing that the activity is designed to be used exclusively by a segment of the population presumed by HUD to be LMI persons; describing how the nature and the location of the activity establishes that it will be used predominately by LMI persons; showing the size and annual income of the family of each person receiving the benefit; showing that barriers to mobility or accessibility have been removed and how the barrier removal was restricted to the extent feasible to one of the particular cases authorized under this subcategory; or showing that the activity qualifies under special conditions regarding job services where less than 51% of the persons benefiting are LMI persons.

2. **Prevention and Elimination of Slum and Blight**

Activities meeting the slum and blight National Objective may involve the rehabilitation or removal of slums and blight in the physical, economic and/or social environments. Activities may address any serious conditions identified in the areas of residential, infrastructure, commercial or industrial facilities. The overall program proposed should resolve all need indicated. CDBG activities directed toward the National Objective of preventing or eliminating slums or blight are divided into two main categories: area basis and spot basis.

Area Basis

Activities meeting one or more of the following criteria, in the absence of substantial evidence to the contrary, will be considered to aid in the prevention or elimination of slums or blight:

- The area delineated by the Applicant must meet the definition of a slum, blighted, deteriorated or deteriorating area under State or local law. Applicants must use the strictest definition to determine eligibility. The New York State General Municipal Law Article 18-C, S-970-c defines "Blighted area" as an area within a municipality in which one or more of the following conditions exist: (i) a predominance of buildings and structures which are deteriorated or unfit or unsafe for use or occupancy; or (ii) a predominance of economically unproductive lands, buildings or structures, the redevelopment of which is needed to prevent further deterioration which would jeopardize the economic wellbeing of the people.
- Throughout the area there are a substantial number of deteriorated or deteriorating buildings or the public improvements are in a general state of deterioration.

- The assisted activity addresses one or more of the conditions which contributed to the deterioration of the area. Rehabilitation of residential buildings carried out in an area meeting the above requirements will be considered to address the area's deterioration only where each such building rehabilitated is considered substandard before rehabilitation, and all deficiencies making a building substandard have been eliminated if less critical work on the building is also undertaken.

Applicants claiming the prevention and elimination of the slum and blight National Objective on an area basis must be able to document that, at the time of application, a majority of the buildings in the area are deteriorated or dilapidated and the area itself is blighted.

Spot Basis

The elimination of specific conditions of blight or deterioration on a spot basis is designed to comply with the statutory objective for CDBG funds to be used for the prevention of blight, on the premise that such action(s) serves to prevent the spread to adjacent properties or areas. To comply with this National Objective, an activity must be designated to eliminate specific conditions of blight or physical decay not located in a designated slum or blighted area and the activity must be limited to one of the following: acquisition, clearance, relocation, historic preservation, and/or rehabilitation of buildings, but only to the extent necessary to eliminate specific conditions detrimental to public health and safety. To be considered to be detrimental to public health and safety, a condition must pose a threat to the public in general.

Applicants claiming the prevention and elimination of the slum and blight National Objective on a spot basis must be able to document the specific conditions of blight or physical decay for the eligible activity, demonstrate the public health or safety threat to the public and show that the area in which the property is located is outside a slum or blighted area.

An activity that fails to meet one or more of the applicable tests for meeting a National Objective does not comply with CDBG rules.

F. Citizen Participation

The Federal Housing and Community Development Act "encourages citizen participation, with particular emphasis on participation by persons of LMI" both in the preparation of CDBG applications and throughout the implementation of local CDBG projects. Specifically, the Act requires public hearings "to obtain the view of citizens on community development and housing needs" and on "proposed activities". Congress has mandated that the hearings "be held after adequate notice, at times and locations convenient to potential or actual beneficiaries, and with accommodation for the handicapped". Therefore, public hearings should be held at a time and place convenient to the general public, with accommodations for persons with disabilities. For hearings where a significant number of non-English speaking persons can reasonably be expected to participate, the notice must also be in the appropriate language(s) and provision must be made for interpreters at the public hearing. Notice of public hearings should also be directed to persons of LMI or those persons who will benefit from or be affected by CDBG activities and/or groups representing LMI persons.

Prior to submitting an application, Applicants must meet the citizen participation requirements at 24 CFR 570.486 and New York State's Citizen Participation Plan, as amended, which require Applicants to follow a citizen participation plan providing for a minimum of one public hearing (one in each jurisdiction of a joint application) prior to the submission of an application for funding, public availability of the application for inspection at the municipal office(s), and one public hearing, if awarded, to be held during the administration of the grant to solicit comments on the effectiveness of the program's administration. Applicants must comply with the following citizen participation requirements:

- Provide for and encourage citizen participation, particularly by LMI persons who reside in slum or blighted areas and areas in which CDBG funds are proposed to be used;
- Ensure that citizens will be given reasonable and timely access to local meetings, information, and records relating to the proposed and actual use of CDBG funds;
- Furnish citizens with information, including, but not limited to:
 - The amount of CDBG funds expected to be made available for the current fiscal year (including the grant and anticipated Program Income);
 - A listing of the activities to be undertaken with CDBG funds;
 - The estimated amount of CDBG funds proposed for activities that benefit LMI National Objective; and
 - The proposed CDBG activities likely to result in displacement and the municipality's anti-displacement and relocation plan required under 24CFR 570.488;

- The amount of funds awarded;
 - The types of activities funded; and
 - Progress towards program goals and objectives.
- Provide technical assistance to group's representative of persons of LMI that request assistance in developing proposals in accordance with the procedures developed by the State. However, such assistance need not include providing funds to such groups;
 - Hold a minimum of two public hearings, one at the time of application and one during the grant administration process, for the purpose of obtaining citizens' views and responding to proposals and questions. The first public hearing must be held prior to the preparation and submittal of an application and the second during the administration of an awarded grant to provide input on the effectiveness of the administration of the grant. The public hearing should provide citizens with reasonable advance notice of, and an opportunity to comment on, proposed activities in an application to the State and grant administration activities; and
 - Public notice must be provided before public hearings are held. Notice of each public hearing should be published at least once in a newspaper of general circulation in the community at least seven days prior to the hearing. At a minimum, public notices should contain the time and place of the hearing, offer accommodations for persons with disabilities and include an invitation to submit written comments and where to direct such comments. Additionally, public hearings held at specific times in the process require specific information in the public notice. Public notices should contain information about the amount of CDBG funds available and the types of activities eligible for CDBG funding and information about the proposed activities and the amount of funds being requested. Public notices for public hearings held during grant administration should contain information on the amount of CDBG funds awarded, the type(s) of activity(ies) funded, and the progress towards beneficiary goals and program objectives.
 - Provide citizens with reasonable advance notice of, and opportunity to comment on, proposed activities in an application to the State and, for grants already made, activities, which are proposed to be added, deleted or substantially changed from the application submitted to the State.

In all cases, the legislative body of the local government must conduct the required public hearings, even if the local government is considering applying on behalf of a Subrecipient, such as a local housing authority, human resource development council, or a county water and sewer district. Having the local government conduct the hearings, rather than delegating the task to a potential recipient of the CDBG funds, provides the most objective forum for considering alternative community needs (and potentially competing proposals for CDBG projects) and encourages a frank discussion regarding any proposed community development projects.

G. Environmental Review

Environmental review procedures contained in 24 CFR Part 58 apply to this program. In addition, 24 CFR 58.22 provides guidance on limitation on activities pending clearance and 24 CFR 50.17 provides guidance on decision points for projects subject to environmental procedures. Under part 58, Recipients assume all of the responsibilities for environmental review, decision making and action pursuant to the National Environmental Policy Act of 1969 and the State Environmental Quality Review Act (SEQR) and other provisions of law specified by the Secretary in 24 CFR part 58 that would apply to the Secretary were he or she to undertake such projects as federal projects.

H. Residential Anti-Displacement and Relocation

Applicants proposing activities that may involve displacement, permanent relocation or demolition or conversion of residential units occupied by low-income persons are responsible for complying with the regulations under the Uniform Relocation Act and Section 104(d) of the Housing and Community Development Act of 1974, as amended. The Act requires displacement of persons which may occur as a result of activities assisted with CDBG funds be minimized. HUD regulations require that if any CDBG activity could result in displacement, Applicants must adopt a plan for minimizing displacement of persons and mitigating any adverse effects of displacement on LMI persons.

Recipients of CDBG funds must provide reasonable benefits and relocation assistance to any person involuntarily and permanently displaced as a result of the use of CDBG funds to acquire or substantially rehabilitate property, including businesses. For projects that may entail the displacement of persons, the Applicant must replace all occupied and vacant, occupiable LMI dwelling units demolished or converted to use other than as LMI housing as

a direct result of activities assisted with CDBG funds. In addition, HUD requires that Recipients provide reasonable benefits to persons displaced as a result of use of CDBG funds in cases which are not governed by the Uniform Relocation Act.

I. Labor Standards

Applicants must comply with all applicable federal and state labor standards as required by the Davis-Bacon Act and Article 8 of the New York State Labor Law. It is the Applicant's sole responsibility to fully understand and comply with the requirements of the labor laws that impact the activity being proposed prior to submitting an application. The impact of federal and/or state labor laws on the proposed activity must be reflected in the application for funding, particularly the cost of the project. Additional information may be obtained from www.dol.gov/compliance/laws/comp-dbra.htm.

J. Lead-Based Paint Requirements

The Residential Lead-Based Paint Hazard Reduction Act of 1992 amended the Lead-Based Paint Poisoning Act of 1971, which established the Federal lead-based paint requirements. In 1999, HUD issued a lead-based paint regulation, 24 CFR Part 35, in response to the regulations effective September 15, 2000. The lead-based paint regulation defines new work practices that must be followed when dealing with lead-based paint in older structures and expands requirements to protect occupants and workers from lead-based paint hazards until lead hazard reduction work is completed.

Applicants must comply with the lead-based paint requirements implemented at 24 CFR part 35, if proposing activities involving residential properties or facilities, operated by the owner and commonly used by children under seven years of age, such as a child care center, purchased or rehabilitated in whole or part with CDBG funds excluding:

- housing constructed on or after 1978;
- housing for the elderly or persons with disabilities, unless a child under 6 resides or is expected to reside in the housing;
- dwellings without bedrooms, i.e., efficiencies and military barracks;
- foreclosure sales;
- short-term leases of 100 days;
- renewal of leases where all information has been disclosed previously and where lessor has acquired no new information ("renewal" is defined under the regulations to "include both re-negotiation of existing lease terms and/or ratification of a new lease"); or
- housing which has been inspected and found to be free of lead-based paint by a certified inspector.

Applicants are required to identify lead-based paint compliance in their application and outline their local plan for addressing lead-based paint hazards.
