NYS HOME Local Program Recapture/Resale Provisions
Approved HUD 2/1/2016

NYS HOME Local Program Homebuyer Recapture/Resale Provisions

When HOME funds are used to assist a household in the purchase of a unit, restrictions will be placed on the unit to ensure compliance with the HOME resale and recapture requirements described in 24CFR 92.254(a)(5). All Recapture and Resale mechanisms used to secure the affordability of the HOME assisted unit must be recorded in accordance with State recordation laws. In all cases, the homebuyer will be required to own and occupy the HOME-assisted unit as his or her principal residence for the duration of the period of affordability. If the HOME-assisted homebuyer fails to occupy the unit as his or her principal residence (i.e., the unit is rented or vacant), or the home was sold or otherwise transferred during the period of affordability and the applicable resale or recapture provision was not enforced, then the project will be considered noncompliant and full repayment of the HOME assistance is required.

Accordingly, the State monitors compliance of the principal residency requirement by requiring Local Program Administrators (State Recipients, sub-recipients and CHDOs collectively known as LPA's) to annually verify principal residence occupancy by mail, records search or direct contact with the homeowner. The State monitors compliance during annual monitoring of the LPA. If the HOME assisted buyer fails to remedy noncompliance issues, full repayment of the HOME assistance provided to the buyer is required.

Recapture

Under most circumstances (except as noted below under Resale), homeownership projects undertaken by a State recipient or sub-recipient will be subject to recapture. The homebuyer assistance will be secured by means of a note and mortgage given to HTFC by the low-income household being assisted. A standard form of the note and mortgage is provided to LPA's by HTFC.

The amount of the note and mortgage is the "direct HOME subsidy".

Direct HOME subsidy is defined as: the amount of HOME assistance, including any program income that enabled the homebuyer to buy the unit. The direct subsidy includes down payment, closing costs, interest subsidies, or other HOME assistance provided directly to the homebuyer.

In addition, direct subsidy includes any assistance that reduced the purchase price from fair market value to an affordable price. If HOME funds are used for the cost of developing a property and the unit is sold below fair market value, the difference between the fair market value and the purchase price is considered to be directly attributable to the HOME subsidy.

If there is no direct homebuyer assistance and a development subsidy is provided, then the resale method outlined below must be used.

Affordability Period – The period of affordability specified in the note and mortgage will be the minimum period for the project as specified in 24 CFR 92.254(a), sections (4) and (5).

The following table outlines the required minimum affordability periods:

If the homebuyer assistance in the unit is:	The period of affordability is:
Under $15,000	5 years
$15,000 to $40,000	10 years
Over $40,000	15 years

The affordability period will be based on the amount of direct home subsidy.

Amount subject to recapture – If a home buyer is in noncompliance with the principal residency requirement (e.g., the unit is rented or vacant) during the period of affordability, will require repayment of the HOME subsidy at the time the event occurred. The amount of recapture permitted in the event of a voluntary or involuntary sale is based on a combination of Owner Investment Returned First (as described in 92.254(a)(5)(ii)(A)(4)) and Pro rata reduction (as described in 92.254(a)(5)(ii)(A)(2)).

Recapture is limited to the net proceeds of the sale, which is defined as the sales price minus superior debt and seller paid closing costs and include only the following items to the extent actually incurred: broker's commission, reasonable attorney's fees, and any transfer tax or recording fee payable by the seller pursuant to state statute or local ordinance in connection with the conveyance.

Upon transfer, whether voluntary or involuntary, the net proceeds of the sale will be determined and distributed as follows, to the extent proceeds are available:

1. Owner shall first be reimbursed from the net proceeds of the sale, if any, for the following:
    - The down payment made at the time of the initial purchase of the Property, if any;
    - The principal amortized on superior debt during the affordability period, if any.

2. The HUD Program Administrator shall then be repaid the Recapture Obligation to the extent there are sufficient sale proceeds remaining. The Recapture Obligation is the amount of homebuyer assistance, as defined above. It will be reduced on a pro rata basis (by 1/ [number of years of affordability period]) during the affordability period at the end of each complete year of the affordability period. For example, if a 10 year affordability period applies, and the homebuyer sells at the end of Year 4, then the amount of the note is reduced by 40%.

3. The remainder of the net proceeds, if any, shall be retained by Owner.

HOME funds that are used as a development subsidy, and are not part of the homebuyer assistance, will not be subject to recapture from the homebuyer.

Recapture will only be made from net proceeds of sale. If there are no net proceeds of sale, then no recapture shall be made.

HTFC requires that all recaptured funds and program income earned by an LPA to be returned to the HTFC within 30 days of receipt for reallocation in accordance with the method of distribution of funds described elsewhere in this Plan.

HTFC will allow, in compliance with 92.254(a)(5)(ii), the assumption of a recapture obligation by a subsequent eligible, low-income homebuyer, when no additional HOME assistance is provided to the subsequent homebuyer. The subsequent homebuyer will assume and complete the original terms and conditions of the recapture obligation of the original homebuyer.

Resale

Under most circumstances, the recapture provisions outlined above will be used in HOME homebuyer activities. However, resale restrictions may or must be used under the following circumstances:

- When HOME Program funds are used only as a development subsidy for the construction or renovation of homeownership housing, and no direct HOME subsidy is provided, resale restrictions must be used instead of recapture restrictions as described above.

- Resale restrictions may also be used at the request of the LPA when HOME funds are invested in: a larger homeownership development, a condominium or cooperative project; projects where a substantial per-unit investment of subsidy is provided; local markets with predominantly high home sales prices, rapidly appreciating housing costs, or where affordability will not be preserved by unrestricted sales of assisted units. HTFC approval of the conditions warranting the use of a resale restrictions is required.

- Resale restrictions are also used when land trusts own the property.

Resale restrictions will ensure that housing assisted with HOME funds is made available for resale only to HOME program eligible low-income households that will use the property as their principal residence.

Resale will be enforced by means of a HTFC provided Restrictive Covenant and Resale Restriction and/or deed restriction that runs with the title to the land, unless the project is located in an area of "presumed affordability" that meets the conditions described in 92.254(a)(5)(i)(B). Such areas of presumed affordability must be reviewed and approved by the HTFC and HUD.

HTFC will permit the use of notes and mortgages in addition to, but not in lieu of the restrictive covenant and resale restriction and/or deed restriction, to secure the rights of HTFC and to recover HOME funds in the event of non-compliance or adverse transfers.

The statute and rule (92.254(a)(5)(i)(A)) provides that the restriction may be extinguished by a third-party lender in the event of foreclosure, transfer in lieu of foreclosure or assignment of an FHA mortgage in order to clear title. HTFC may use purchase options, rights of first refusal or other means to intervene and preserve the affordability of the unit.

<u>Affordability Period</u> -- The following table outlines the required minimum affordability periods for homebuyer projects that are subject to resale restrictions:

If the total HOME investment in the unit is:	**The period of affordability is:**
Under $15,000	5 years
$15,000 to $40,000	10 years
Over $40,000	15 years

The period of affordability is determined by the total investment of HOME funds in the unit, regardless of whether or not the funds are reflected in buyer financing.

Low-income households eligible to purchase properties restricted by resale provisions must be households whose annual incomes do not exceed 80% of the median income for the area as determined by HUD with adjustments for family size and the housing must be occupied by the low-income household as its principal residence throughout the affordability period.

If the assisted property is sold while under the resale restrictions, the home must be sold to a HOME eligible buyer approved by HTFC or its Local Program Administrator.

- The price at sale must provide the original HOME-assisted homebuyer a fair return on the investment and be affordable to a reasonable range of low-income buyers. Therefore, sales price during the affordability can occur at market value, with the following limitations:

- Fair return to seller – The price shall not exceed a price that results in net proceeds (after senior debt and sales costs) to the seller that exceeds the sum of:

    1. The reimbursement of the original owner’s down payment and/or closing costs made at the time of initial purchase, if any;

    2. The principal amortized on the senior debt during the period of ownership;

    3. The investment in eligible capital improvements defined as: any individual improvement made specifically to the structure or major system of the HOME assisted housing unit in which the cost was more than $3,000.00 and where applicable, the work was properly permitted, inspected locally and the actual cost has been documented with third party receipts.

- The value of the owner's investment (the sum of 1-3 above) will be adjusted by using the Housing Price Index. The change in the HPI from the original purchase to the time of sale will be applied to the value of the owner's investment, so that the value of the improvements is increased or decreased by the amount of increase or decrease in the housing market overall.

- Affordable to range of low-income buyers – The sales price may not exceed a price that is not affordable to households at 70% to 80% of area median income (AMI). The HTFC defines “affordable price” as a price that is at or below an amount that will allow a low income family to pay no more than 35 percent of their monthly income to pay for mortgage principal and interest, property taxes and insurance.

The seller must have the sales price approved by HTFC or its Local Program Administrator, in addition to approval of the HOME eligible buyer. If the fair market value of a HOME assisted property subject to resale provisions is more than what is affordable to the subsequent low-income purchaser, then additional HOME assistance may be given by HTFC or its local program administrators.
