For major capital improvements not listed above, the owner must submit evidence with the application that the useful life of the item or equipment being replaced has expired. A checklist of documents necessary to process the MCI application and a list of requirements for certain items are available in the MCI application and instructions respectively (Form RA-79).

Waiver

An owner who wishes to request a waiver of the useful life requirement must apply to the DHCR for such waiver prior to the commencement of the work for which he or she will be seeking a major capital improvement rent increase. Notwithstanding this requirement, where the waiver requested is for an item being replaced because of an emergency, which causes the building or any part thereof to be dangerous to human life and safety or detrimental to health, an owner may apply to the DHCR for such waiver at the time he or she submits the major capital improvement rent increase application. One reason why the DHCR may grant a waiver is if the item or equipment cannot be repaired and must be replaced during its useful life because of a fire, vandalism or other emergency, or an “act of God” resulting in an emergency.

If the waiver request is denied, the owner will not be eligible for a Major Capital Improvement (MCI) rent increase. If it is granted, the useful life requirement will not be a factor in the determination of eligibility for the MCI rent increase. However, approval of the waiver does not assure that the application will be granted, as all other requirements as set forth in Fact Sheet # 24, *Major Capital Improvements (MCI)*, must be satisfied. Furthermore, where a waiver is granted, under certain circumstances the DHCR may grant an MCI rent increase based on a cost that is lower than that claimed by the owner.
