**EXHIBIT 1**

**New York State Investment Policy**

## **INVESTMENT POLICY**

*January 2021*

### **INTRODUCTION**

Section 170 of the Tax Law establishes the Division of the Treasury (Treasury) within the Department of Taxation and Finance (DTF). By statute, the head of Treasury is the Deputy Commissioner and State Treasurer appointed by the Commissioner of Taxation and Finance. The Commissioner as the statutory sole custodian or fiscal agent for certain funds of state agencies and public authorities empowers the Treasurer to act on their behalf with all powers and duties vested in the Commissioner. The Treasurer manages funds with prudent due diligence to ensure safety and necessary liquidity while earning the highest possible yield consistent with current market conditions. The Treasurer is authorized and empowered to purchase, sell, assign, and transfer any stocks, bonds, or other securities of which the Commissioner is the statutory sole custodian or fiscal agent.

### **STANDARD OF CARE**

The “prudent person” standard shall be used by Treasury investment staff in the management of the overall investment portfolio. The “prudent person” standard is understood to mean: investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived.

### **INVESTMENT OBJECTIVES**

The criteria in this policy are intended to guide investment decisions so they are consistent with all applicable federal, state, and other legal requirements. The State Treasurer shall have the discretion to waive in writing any of the provisions of this policy provided that the waiver shall not result in an investment prohibited by statute.

The investment objectives in order of priority are as follows:

- Abide by statutory requirements (legal)
- Safeguard principal from imprudent risks (safety)
- Provide sufficient liquidity to meet the purposes for which the funds are being held (liquidity)
- Obtain a reasonable rate of return (yield)
- Maintain procedures that allow for diversification of investment firms and to ensure opportunity for participation by minority and women owned (MWBE) investment firms.

### **INVESTMENT TRANSACTIONS**

All investment transactions shall be executed to the extent practicable on a competitive basis from primary government securities dealers as defined by the Federal Reserve Bank of New York or MWBE broker-dealers (See Appendix B). If quotes received are tied with no broker-dealer or bank willing to break the tie, and, if the firms cannot be distinguished by their service provided or by the competitiveness of their historical quotes, then the trade will be allocated based on a balanced allocation amongst dealers.

Payment of funds shall only be made against the delivery of (i) collateral or other acceptable form of security (ii) obligations when such obligations are purchased outright or (iii) evidence of ownership in the Permitted Investment; in each case either to Treasury or its duly authorized trustee or custodian. All Permitted Investments shall be held by Treasury's custodian. Records of investments shall be maintained and identify the security, the fund for which held, the place where kept, trade and settlement date, cost, sale price, and market value.

## **PERMITTED INVESTMENTS**

Subject to the provisions of the law relating to the sole custody funds overseen by Treasury monies not required for immediate expenditure may be invested in the following:

- Obligations issued, or fully insured or guaranteed as to the payment of principal and interest, by the United States of America or New York State which have a maturity of twelve years or less.
