

## Supportive Housing Opportunity Program

**SUPPORTIVE HOUSING OPPORTUNITY PROGRAM (SHOP):** SHOP provides gap financing for the creation of affordable supportive housing with on-site supportive services. The use of SHOP funding is limited to projects financed with HFA bonds and those utilizing federal 9% Low Income Housing Tax Credits (9% LIHTC). Additionally, the use of SHOP funding is limited to projects with a service and operating award.

Supportive housing projects seeking to include units above 60% AMI (or above 80% AMI if income averaging is utilized) and up to 130% AMI (Middle Income Units) are eligible to apply for Middle Income Housing Program funds subject to the limits specified below, as applicable, and based on demonstrated need for gap financing by HCR underwriting standards.

Applicants can access Section 8 Housing Choice Project Based Vouchers (from HCR through a separate RFP and local administrators) to fund non-Empire State Supportive Housing Initiative (ESSHI) units in an ESSHI project. In New York City, applicants can access Section 8 Housing Choice Project Based Vouchers for rental subsidies for both ESSHI and non-ESSHI units. The ESSHI service and operating award will be reduced to account for services only on ESSHI units.

Priority is given to projects in accordance with the information set forth herein. Actual award amounts must be recommended by HCR staff, and approved by HFA Credit Committee, HTFC and/or HFA Boards, as applicable. Applicants are strongly encouraged to apply for only the funding necessary for the financial feasibility of the project and to leverage funding from non-HCR sources. HCR reserves the right to allocate funding to ensure that the broad range of statewide housing needs are met.

<b>Eligible Uses</b>	<p>New construction of, the adaptive reuse of non-residential property to, or the rehabilitation of unregulated residential property to create integrated affordable supportive housing with supportive services offered to the tenants. Applicants are encouraged to maximize the number of supportive housing units in their developments taking the neighborhood context into consideration. The total number of new supportive housing units must constitute at least 30% (25% for projects with OPWDD units) of the total units in the project. For projects involving the relocation of existing supportive units funded by state rental and operating subsidies, the existing supportive housing units will be considered as “new” supportive housing units for the purposes of calculating the total number of supportive units in the proposed project.</p> <p>Eligible costs are for site acquisition, hard costs, and related soft costs.</p> <p>For projects applying through the HCR Multifamily Finance 9% RFP, permanent financing only. For projects applying for financing with HFA bonds, both construction and permanent financing available.</p>

HCR will allow a reduced rent burden to encourage middle- and moderate-income households to reside in economically distressed neighborhoods, such as a Qualified Census Tract (QCT) or a project which is a component of a downtown revitalization effort. In such cases, HCR will allow up to a 20% rent advantage for middle-income tenants. For example, if the rent of a MIHP unit is set at an 80% AMI affordability level, it may be rented to households up to 100% AMI. Projects outside of a QCT or which are not a component of a downtown revitalization effort must be able to achieve rents that are affordable to households with incomes of at least 80% AMI in order to access MIHP funding.</p>
