

LGBTQ+ Affirming Senior Housing Program

LGBTQ+ AFFIRMING SENIOR HOUSING PROGRAM (SENR): HCR provides financing to develop new multifamily rental housing that is affirming for New York State’s LGBTQ+ low-income seniors aged 62 and above so that they may age in place and live independently in their own homes and communities. The housing created will include healthy aging programming that does not trigger Department of Health licensure, yet will access community partnerships, resources, and activities for those aged 62 and above.

Projects proposing a set-aside of units for ESSHI-eligible seniors within an affordable senior housing project must request Senior Housing Program funds. Developments that are transit oriented, part of community redevelopment and revitalization, and/or supported by the Regional Economic Development Councils and the NYS Downtown Revitalization Initiative are highly encouraged.

Projects must comply with the income restrictions described below. All sources are considered gap financing based on demonstrated need for such funding pursuant to HCR underwriting standards. Actual award amounts must be recommended by HCR staff, approved by HCR Credit Committee, and approved by the HTFC and/or HFA Board, as applicable. Applicants are strongly encouraged to apply for only the funding necessary for the financial feasibility of the project and to leverage funding from non-HCR sources.

Not-for-profit applicants should have prior experience developing, marketing, owning, and managing LGBTQ+ affirming housing for low-income seniors. Eligible applicants should describe their relevant experience in the application.

Priority shall be given to not-for-profit applicants that have prior experience supporting the transgender, gender non-conforming, and non-binary community, in alignment with the goals of the Lorena Borjas Transgender Wellness and Equity Fund legislation.
