

Senior Housing Program

SENIOR HOUSING PROGRAM (SENR): HCR provides financing to develop new multifamily rental housing so that New York State’s low-income seniors may age in place and live independently in their own homes and communities. The housing created will include healthy aging programming that does not trigger DOH licensure, yet will access community partnerships, resources, and activities for those aged 62 and above. Projects proposing a set-aside of units for ESSHI-eligible seniors within an affordable senior housing project must request Senior Housing Program funds. Developments that are transit oriented, part of community redevelopment and revitalization, and/or supported by the Regional Economic Development Councils and the NYS Downtown Revitalization Initiative are highly encouraged.

Projects must comply with the income restrictions described below. All sources are considered gap financing based on demonstrated need for such funding pursuant to HCR underwriting standards. Actual award amounts must be recommended by HCR staff, and approved by HCR Credit Committee, the HTFC and/or HFA Board as applicable. Applicants are strongly encouraged to apply for only the funding necessary for the financial feasibility of the project and to leverage funding from non-HCR sources.

Priority shall be given to not-for-profit applicants that have prior experience developing, marketing, owning, and managing housing for low-income seniors. Eligible applicants should describe their relevant experience in the application.
