

Device Category	Additional Information (Vendor, Platform, etc. Required if selecting managed service option)	Quantity	Notes (Optional)
Anti-virus - Endpoints	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Application Servers	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Data Loss Prevention - Endpoints	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Data Loss Prevention - Servers	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Database Monitoring Applications	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Database Servers (Oracle, MSSQL, DB2, MySQL, etc.)	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Device Control Systems	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
DNS Servers	Agency will not provide vendor and platform at this point to minimize any security issues or threats	4	
Email Content/Spam Filtering	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Email Servers - Exchange / Sendmail	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Firewall/UTM - Perimeter	Agency will not provide vendor and platform at this point to minimize any security issues or threats	2 HA pairs	
Firewall/UTM - Internal	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Firewall/UTM - Regional Office	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Firewall/UTM - Branch/Store/Remote Office	Agency will not provide vendor and platform at this point to minimize any security issues or threats	1	
Host Intrusion Prevention - Endpoints	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
IDS / IPS	Agency will not provide vendor and platform at this point to minimize any security issues or threats	This should be provided in the vendor's solution.	
Load Balancers	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Mainframe / iSeries	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Netflows	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Network Access Control (NAC)	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Network Behavioral Analysis/Detection	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Networking - Router - Management Events	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Networking - Switches - Management Events	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
RADIUS / LDAP	Agency will not provide vendor and platform at this point to minimize any security issues or threats	2	
Unix/Linux - High Activity	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Unix/Linux - Average Activity	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Unix/Linux - Desktops	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
VPN	Agency will not provide vendor and platform at this point to minimize any security issues or threats	1	
Vulnerability Management	Agency will not provide vendor and platform at this point to minimize any security issues or threats	1	
WAN Accelerators	Agency will not provide vendor and platform at this point to minimize any security issues or threats	0	
Web Proxy / Content Filtering	Agency will not provide vendor and platform at this point to minimize any security issues or threats	1	
Web Servers (Apache, IIS, etc.)	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Domain Controllers - Corporate	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Domain Controllers - Regional	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Domain Controllers - Office	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Servers	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Servers - High Activity	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Windows - Workstations	Agency will not provide vendor and platform at this point to minimize any security issues or threats	see RFP 8.3	
Wireless Access Point	Agency will not provide vendor and platform at this point to minimize any security issues or threats	48
